

I WELCOME CAMPAIGN TRAINING PACK

About this training

This training pack has been created by Amnesty International UK on the I Welcome (Refugees) campaign which campaigns for the UK government to respect refugee rights, to create a positive environment for refugees in the UK, to build relationships with other organisations and to contribute to work to ensure that refugee rights are respected internationally. This training pack is a guide for Trainers to use when engaging with Local Groups, Student Groups or external organisations.

The pack is intended for delivery in a training or facilitation setting. You may add or delete parts of the training as you find appropriate and adapt the script to suit the style and length of your session.

Do look out for new content, cases and actions at www.amnesty.org.uk/refugees
