*Your Majesty,*

*On 4 April 2019 at 5 am, Palestinian national **Dr Mohammed al-Khudari** (81) was arbitrarily arrested from his home in Jeddah by Saudi officials, without presenting a warrant. Later the same day, Dr Mohammed al-Khudari's son, **Dr Hani al-Khudari** was arrested while leaving his work at Um al-Qur'a University in Mecca, by men in plain clothes who asked him for directions and then forced him into their car.*

*Both men were forcibly disappeared for one month after their arrest and held incommunicado and in solitary confinement for the next two months of their detention. A month into Dr Mohammed al-Khudari's arrest, his wife received a phone call from authorities in Dhahban Prison requesting his medical records. Two weeks prior to his arrest Dr Mohammed al-Khudari had undergone surgery. There is serious concern for his health, as he was detained while he was being treated for cancer; especially considering his most recent medical tests indicate that his tumour has grown, requiring urgent medical attention.*

*Dr Mohammed al-Khudari and Dr Hani al-Khudari have been arbitrarily detained in Dhahban Prison without charge or trial since April 2019. They were repeatedly interrogated without a lawyer present.*

***We therefore call on your Majesty to release Dr Mohammed al-Khudari and Dr Hani al-Khudari immediately, unless they are promptly charged with a recognisable criminal offence and tried in proceedings that respect international standards for fair trial; including the inadmissibility of coerced statements. In the interim, ensure that both men are protected from torture and other ill-treatment, have access to lawyers, and allowed to contact their family, and that Dr Mohammed al-Khudari is immediately granted adequate medical attention.***

*Yours sincerely,*

## ADDITIONAL INFORMATION

Dr Mohammed al-Khudari is a Palestinian national and a retired doctor and politician, who has been residing in Saudi Arabia for approximately 30 years. Dr Mohammed al-Khudari was the official representative of the Hamas de facto authority in Gaza, in Saudi Arabia. He was responsible for coordinating relations between the Hamas de facto authority in Gaza and the government of Saudi Arabia. He resigned from his position and has been inactive for the past ten years due to his illness.

Dr Hani al-Khudari is a Palestinian national with no political affiliations. He completed his Ph.D. in computer science and is currently a professor at Um al-Qur'a University, where he was arrested.

Dr Mohammed al-Khudari and Dr Hani al-Khudari have been subjected to gross human rights violations, including enforced disappearance, arbitrary arrest and detention, being held incommunicado and in solitary confinement. Furthermore, both men were interrogated behind closed doors without the presence or participation of their lawyers.

Their treatment and conditions of detention have placed a great deal of stress and psychological pressure on both men, especially Dr Mohammed al-Khudari, who was reportedly heard crying in his cell every night. The denial of access to adequate medical care has further deteriorated Dr Mohammed al-Khudari's health conditions – who received a diagnosis that his cancer had developed, while in detention. Such conduct violates the prohibition of torture and other ill-treatment.

The arrests of the two Palestinian nationals is part of a wider crackdown by the Saudi Arabian authorities on Palestinians residing in Saudi Arabia with a perceived link to Hamas de facto authorities. Since February 2019, the Saudi authorities have detained approximately 60 Palestinians visiting or residing in Saudi Arabia, including students, academics, and business men. [According to the family members](#) of the detained Palestinians, they were subjected to enforced disappearance, held in solitary confinement and detained incommunicado. Until this day, the detained Palestinians have been held in detention without charge or trial and have no access to legal representation.
