#ENDISRAELIAPARTHEID

There is no place for apartheid in this world. It is a crime against humanity, and it must end.

Israel's cruel system of apartheid against Palestinians has gone on too long with almost total impunity. The international failure to hold Israeli authorities to account means millions of Palestinians continue to suffer every day.

For decades, Palestinians have been calling for an end to the oppression they live under and for help from the rest of the world. It is time to speak up, to stand with them, and to tell Israel we will not tolerate apartheid, starting with ending home demolitions and forced evictions.

Join us in the fight for justice, freedom and equality for all.
