# **Syria**

## **And the Arab Spring**

Given by Ellis Brooks  
Amnesty International's Syria Co-ordinator

How has the situation in Syria arisen? Are the violence and the human rights violations all coming from one side? What are the underlying political conditions in the country? Were human rights respected before the uprising? Why has the international community been slow to take action in this case and how is the conflict likely to end?

Come and debate these and other questions

**On Thursday 27 October**

**At 7.30pm**

**In The Friends Meeting House  
Eastcott Hill, Swindon**
